KING JULY WITH SCHWAB

The Steel Magnate Meets
Edward VII., Third Mon-
arch in a Week.

HEART TO HEART CHAT.

Monte Carlo and Tranby Croft
Probable Topics, and Stogies
as Soothers.

(Special to The Evening World.)
LONDON, Feb. 7.—The King of England gave an audience to Charles M. Schwab, the King of Steel, today. The head of the greatest monarch in the world had been anxious to meet the head of the greatest trust in the world ever since Mr. Schwab's arrival in London, and his greeting was most friendly and jovial.

The two kings have much in common, and although Mr. Schwab absolutely refused to discuss his visit after the left Marlborough House, where the audience was given him, it is understood that the conversation was not entirely confined to industrial topics.

King Edward has played roulette himself in the days when he had nothing much else to do. Rumor has it that the reformer alleged to have been administered to young Mr. Schwab by Mr. Morgan and the W. O. T. U. for his laudable effort to break the bank at Monte Carlo aroused in the breast of the King of England a feeling of sympathy which he was not slow to express today.

It has not been so many years ago since Edward himself was "told down" for his connection with a certain baccarat game at Tranby Croft. The difference between his experience and that of Mr. Schwab was that no talk of cheating in the game grew out of the experience of the Steel King at Monte Carlo.

Mr. Thomas Lipton accompanied Mr. Schwab to Marlborough House and introduced him to the King. Efforts to learn from the sporting knight whether the refreshments served were Scotch highballs or the contents of small cold bottles were unavailing. Mr. Schwab denied that he carried a pocketful of Pittsburgh stogies and tried to persuade the King to try one.

King Edward said to have warmly congratulated Mr. Schwab upon his remarkable success in life, somewhat to the American's surprise. He said that Mr. Schwab was in no way affected by the honor that had been conferred upon him. Schwab, who has been in the city for the last few days, is getting to be an everyday experience with him. King Edward is the third he has met in a week, and in no case did he take the initiative.

Mr. Schwab will sail for New York tomorrow.

MAYOR ENTERTAINS SCHWAB.
Steel President Has Luncheon with London City Magistrate.

LONDON, Feb. 7.—Charles M. Schwab, President of the United States Steel Corporation, and Mrs. Schwab were entertained at a private luncheon today at the Mansion House by the Lord Mayor, Sir Joseph P. Dimmock.

The party included Sir Thomas Lipton, Archibald W. Macdonochie, M. P., Sheriff Bull and Sol. Hunsicker, Chairman of the Nickel Corporation.

**\$7,000,000 BANKER
STRICKEN ON "L."**

SCHLOFF HAS AN ATTACK OF
APOPLEXY.

New Idea at the Hudson Street Hospital in Serious Condition.

F. F. Schloff, eighty-one years old, living at No. 21 East Eighteenth street, was stricken with apoplexy today on the platform of the "L" station at South Ferry.

About 10:30 A. M. Mr. Schloff bought a ticket at the window, walked across to the ticket box, and fell in a heap at the ticket taker's feet.

An ambulance was summoned and he was taken to the Hudson Street Hospital. His condition is serious.

ROOSEVELT'S SON IS ILL.

Theodore, Jr., Under a Physi-
cian's Care at Groton
School.

CONDITION NOT SERIOUS.

President's Wife Has Cancelled All
Engagements and Hurried to
Boy's Bedside.

The Evening World called up on the long distance telephone this afternoon the Groton School at Groton, Mass., where Theodore Roosevelt, Jr., the President's son, is a pupil.

The principal of the institution was asked if it were true that young Roosevelt was dying. He said: "That is absolutely false. The boy is not dying, nor is he dangerously ill. The physician does not consider his sickness in the remotest way serious. The boy is in bed with a severe cold, and is receiving proper care. We expect him to be about soon."

"We have sent word to the President of his son's illness and all about it. There is no need for any fears that the boy will die. He is a hardy, robust boy, and it would require a pretty severe sickness to scare him."

WASHINGTON, Feb. 7.—A report reached here last night that Theodore Roosevelt, Jr., the eldest son of the President, was ill with pneumonia, at Groton, Mass., where he is attending school in preparation for entering Harvard University.

He had been ill for several days, but not until last night did his condition become at all alarming. Word was immediately sent to his parents, and Mrs. Roosevelt will leave today to attend him.

She has cancelled all her engagements and expects to be at the bedside of her son until he is out of all danger.

It is not known yet whether the President's trip to Charleston will be abandoned. Mr. Roosevelt is anxious to attend the Exposition, but his action will depend, of course, upon the condition of his son.

Teddy Roosevelt, Jr., is as like his father as a son can possibly be. He is sturdy, vigorous and breezy. He is enthusiastic in his devotion to outdoor athletics and sports. He is at the same time a philosopher and sincere student. Illustrative of the youngster is the story told of him. A reporter once met him and wrote a complimentary paragraph. A few days later Teddy Jr. and the reporter met again.

"My friend," said the youngster, "I had my attention called to your article referring to me. I must ask you not to do this again. Please remember that I am not a candidate for public office. I do not seek notoriety."

He was seated on his pony when he said this and a moment later he was galloping madly down the road just like any ordinary baram-scarum boy.

Last summer Teddy, Jr., and his two cousins, George and John, walked from Oyster Bay to visit their uncle, R. B. Roosevelt, at Sayville, L. I. This is a curious incident in the life of a young man who is a devotee of outdoor sports. He was expressed at the time that he was not a philosopher and a serious scholar. That sums him up.

AGAINST FAITH-HEALING.

Kaiser Takes Action to Prevent
Spread in Germany.

BERLIN, Feb. 7.—Kaiser Wilhelm has intervened to stem the spread of the faith-healing cult in Germany. The Kaiser has had long conferences with the Chiefs of Police of the various provinces here of the Christian Scientists, who, as previously announced in these dispatches, have been active in the higher strata of Berlin society.

One Caused Dickson's Death.
Lawrence Dickson, who was found overcome by gas at a hotel at No. 35 Whitehall street, died in Hudson Street Hospital this morning.

The Arion Truly a Feast.
The curious spectacle of the Arion ball tonight, enhanced by the good nature of the spectators, resulted in the arrest of a chameleon "White Seal" champion of the famous "White Seal" fight.

The meat of this particular brand will have the opportunity of joining the dairy, because of its superior quality, give preference to "White Seal." The wife will be offered in perfect condition.

WEATHER FORECAST.
Forecast for the thirty-six hours ending at 8 P. M. Saturday, for New York City and vicinity: Generally fair and colder to-night and Saturday brisk westerly winds.

PRISON FOR DYING MAN.

Justice Foster Sentences
Thief Whom President
Had Just Pardoned.

REJECTS PATHETIC PLEA.

Tells G. Arthur Hill, Arrested on
Old Charge, Physicians Will
Care for Him.

"The seeds of the wickedness of former years are just now sprouting in me. I am dying. I have consumption. Your Honor, and I can't get sunshine and air in a prison. I know that I am not to live long and I should like to die out in the open air."

Despite this pathetic plea, a man whom President Roosevelt pardoned six weeks ago because he was dying of consumption, was sentenced to six months in the Blackwell Island penitentiary by Justice Foster this afternoon on an old charge of larceny committed more than a year ago.

All this was made plain to the Justice, Capt. James Parker, who was one of Admiral Schley's counsel in the Court of Inquiry, made a plea for the boy and he begged that he be allowed to die in the sunshine, but it did not save him. The prisoner was G. Arthur Hill. He is about twenty-five years old. He is said to come of a well-known naval family in Washington. He has been very wild and has served two terms in the Massachusetts penitentiary and one in Washington for stealing trunks.

It was while serving his Washington sentence that he developed consumption. The prison physicians said that he was going to die, and when the friends of his family called President Roosevelt's attention to the case the President pardoned the boy that he might die in liberty.

He came straight to New York, and he had not been here long when he was arrested, charged with having stolen a trunk containing over \$200 worth of valuables in November, 1900. He was so ill that he had to go to a hospital.

While there he was indicted and today he was brought up for trial. He pleaded guilty to petit larceny. Capt. Parker, who came on from Washington to make a plea for him, asked the court to release him. He offered to pay his fare to Washington, but he refused to be responsible for his good conduct thereafter.

A Salvation Army officer also begged for him, for Hill and promised to see that he was taken care of. Then the Court asked Hill what he had to say why sentence should not be passed. The young man got feebly on his feet and with a pale face made the plea already quoted.

Justice Foster told him that he had allowed him to plead guilty of petit larceny when he had committed grand larceny, and that he caught the best to send him to prison for six months. "They will treat you kindly there," he said. "You will find a physician."

This was the kind intention of President Roosevelt rendered abortive.

STRAW BONDSMAN GETS SIX YEARS.

FIRST CONVICTION FOR THE
CRIME IN NEW YORK.

Walter Fernbach, Who Gave Bogus Ball, Had Also Robbed His Wife and Forged a Note.

Walter M. Fernbach, a straw bondsman, was today sentenced to a term of six years and ten months in Sing Sing for the crime of perjury. Fernbach lived in the Hotel Roland, at No. 31 East Fifty-ninth street. He is twenty-eight years old.

Fernbach secured the release of William Hoepner, who was charged with grand larceny. Fernbach qualified in \$500 bail, giving the house at No. 31 West Nineteenth street as his security. When Hoepner's case came to trial it was found that he had run away, and the District Attorney found on investigation that Fernbach did not own the property named in the bond. By a ruse Hoepner was caught and a warrant was issued for the arrest of Fernbach.

He was soon found and saved the country the expense of a trial by pleading guilty. It was discovered on looking up his record, that he had been a straw bondsman four times previously. It was also learned that he had been married last March, that he had robbed his wife of \$100, stole two diamond rings, forged a note for \$120 on the Mutual Bank and in addition to robbing his wife had beat and left her helpless and penniless.

Fernbach was sentenced in Part II of the Court of General Sessions, Judge Foster in sentencing him said:

"This is I believe the first time that a conviction has been secured in New York in a case of straw bondsman. It is a crime that is committed daily and if permitted to go on, no criminal would fear punishment. This is a peculiarly offensive and heinous crime."

VERY LATEST NEWS IN BRIEFEST FORM.

CENTRAL CENSURED ON FOUR POINTS.

ALBANY, Feb. 7.—The State Railroad Commission censures the New York Central on these four points:

That the engineman of the Harlem train was inexperienced, lacked reasonable presence of mind and unmistakably violated the rule which required him to stop his train.

That it was grossly negligent of its obligations to the public in putting an engineer of such limited experience in charge of a passenger train.

That it has been negligent, derelict and unprogressive in failing to take measures to increase its terminal facilities at the Grand Central Station, and

That it had been negligent in failing to examine more closely into the qualifications of new engineers, and lax in discipline in failing to hold engineers to accountability for violation of the running rules.

LATE RESULTS AT NEW ORLEANS.
Fourth Race—Marie Bell 1. Parnassus 2. Orla 3.
Fifth Race—Piederich 1. Silver Coin 2. Beana 3.

PRESIDENT'S SON A LITTLE BETTER.
WASHINGTON, Feb. 7.—The President, shortly after 5 o'clock this afternoon, read a telegram from Groton, Mass., reporting that his son had a little lower temperature, and that his condition was slightly more favorable.

MURRAY CASE ADJOURNED FOR A WEEK.
By the mutual consent of counsel, the examination of Andrew Murray, the powder man in the late subway explosion, which was to have been held today before Magistrate Cornell, in the Centre Street Court, was postponed until Feb. 14.

BEGGAR STOLE HIS DIAMOND PIN.
PHILADELPHIA, Feb. 7.—J. A. Shepard, of New York, a guest at Dooner's Hotel in this city, today reported to the police that he had been robbed of a diamond scarfpin by a man who asked him for aid. The beggar grabbed the pin as Shepard put his hand in his pocket to give him money.

CRANK VISITS MAYOR'S OFFICE.
A crank, with long white hair and gray mustache, called at the Mayor's office this afternoon and demanded to see Mr. Low. His particular grievance was against the City Magistrates. "I want the Mayor to remove them all," he cried. "If he doesn't, I'll get rid of them myself." He required a half hour's coaxing to induce him to leave.

NEW SUPERINTENDENT VISITS TUNNEL.
W. C. Brown, the new General Superintendent of the New York Central, with his assistant, Mr. Smith, arrived in New York today. Mr. Brown's first official act was to pay a visit to the tunnel with Mr. Smith and Supt. Franklin. He went through the hole from one end to the other, inspected the signal system and made a careful survey of the terminal facilities. From this it is inferred that he will get to work on the problem of handling traffic in the tunnel without delay.

TREASURER OHRENBURG NOT MISSING.
Misleading reports in a morning newspaper that John Ohrenburg, treasurer of the benefit association of a department store, was missing and that some of the association's funds had been embezzled, were denied today by the managers of store, who said that there was no basis for the report, except that Ohrenburg went away for a week without notifying his friends as to where he would be. His whereabouts are known, and the position he has held for twenty-two years is still his.

J. PIERPONT MORGAN WINS A SUIT.
J. Pierpont Morgan, George L. Bowdoin and other surviving members of the firm of Drexel, Morgan & Co., were named as defendants in a suit decided by the Appellate Court today in their favor. Robert L. Niles sued as a stockholder of the New York and Northern road, alleging that the value of his stock had been decreased \$292,000 through a conspiracy to give the New York Central control of the company. The case was decided against him.

MRS. BAILEY DIVORCED FROM WEALTHY HUSBAND.
Mabel W. Bailey was granted a divorce from her husband, John R. Bailey, a wealthy lumberman of Tupper Lake, N. Y., in the Supreme Court in Brooklyn today. Mrs. Bailey is a daughter of Hayden W. Vinograd, a prominent resident of Brooklyn, whose home is at No. 274 Washington avenue, and who is in the jewelry business at No. 15 Maiden lane, in this borough.

HYENA LOOSE IN JERSEY CITY.
A hyena in a menagerie at Glendale Woods, Communipaw avenue, Jersey City, escaped today. Keepers and residents are reported to be on looking for the beast. The animal found the doors of his cage unfastened and bolted. The escape was not discovered until a keeper was making a round to feed the animals. The animal was seen on Nunda avenue late in the day, and was reported to have killed two bulldogs.

TO REVACCINATE ALL THE POLICE.
Police Commissioner Partridge this afternoon issued a general order requiring all the members of the force to be vaccinated. The force was vaccinated only a year ago, but the Commissioner says he thinks it safer to have the men undergo the operation again.

RAILROAD BOARD CENSURES CENTRAL.

State Commission Finds that the Company Was
Grossly Negligent in Management
of the Tunnel.

(Special to The Evening World.)
ALBANY, Feb. 7.—The State Board of Railroad Commissioners has made public its report on the late New York Central tunnel disaster. As forecasted in The Evening World, the report recommends that the fatal 788-foot signal blocks be abolished and its trackage added to the next northern block. It was at this block where the collision occurred last month. The Board also recommends the lengthening of all blocks along the lines proposed two weeks ago by The World.

The Board finds the New York Central Railroad grossly negligent in putting an inexperienced engineer in charge of a passenger train during rush hours. The company is also accused of dereliction in not having increased its terminal facilities at the Grand Central to keep pace with the increased traffic.

It is also recommended that all distant and home lamp signals on the Harlem side in the Central tunnel be placed on standards nine feet above the rail, so as to be level with the cab. The use of soft coal in the tunnel is absolutely prohibited. Anthracite coal or coke only is to be used.

Temporary changes in the yard tracks must be made on the property lately purchased by the New York Central Company.

The last recommendation is that the proposed underground suburban traffic loop carried to completion as soon as the necessary legislation is had.

The full text of the recommendation is as follows:

Changes Suggested.
That the signal track block in the tunnel between Fifty-fifth and Fifty-eighth streets be abolished on all four tracks, and its trackage added to the next northern block, which extends to Seventy-second street on the inbound track and to Seventy-third street on the outbound track. This change will give the inbound tracks, now at Ninety-eighth street to One Hundred and Second street and on the outbound tracks from Ninety-seventh to One Hundred and First street, and farther, that the location of the cross-over tracks now at Ninety-seventh and Ninety-eighth streets be changed to corresponding positions between One Hundred and First and One Hundred and Second streets. This change will make the block 1286 feet in length on the inbound tracks and 1446 feet on the outbound tracks.

May Have Only Two Blocks.
The Board is of the opinion that these last mentioned signals and cross-overs are now too close to inbound trains emerging from the north end of the tunnel. The Board will watch the operation of the tunnel in three blocks with special care, and if it results favorably will next give attention to the feasibility of adopting a two block plan, which if practicable as to time and the volume of traffic, will doubtless conduce to greater safety in operation. The fact will remain that all railroading is dangerous and that only relative safety can be obtained by the best rules, devices and appliances.

That all distant and home lamp signals on the Harlem side in the Central tunnel be placed on standards or light poles at a height of nine feet above the top of the rail, so that the lens will be on a level with the cab window.

No More Soft Coal.
The use of fresh soft coal in locomotive furnaces while passing through the tunnel has already been forbidden by

track and to Seventy-third street on the outbound track. This change will give the new south block, which is now approximately 138 feet long a length of 1449 feet on the inbound tracks and 1449 feet on the outbound tracks. The middle block, extending from Seventy-second street to Eighty-sixth on the inbound tracks and from Seventy-third street to Eighty-seventh street on the outbound tracks is about 1450 feet long.

The Northern block extends from Eighty-sixth to Ninety-eighth streets is now 1449 feet long on the inbound tracks and from Eighty-seventh street to Ninety-seventh street on the outbound tracks is 2306 feet long.

That this block last referred to be lengthened by removing the signals on the inbound tracks, now at Ninety-eighth street to One Hundred and Second street and on the outbound tracks from Ninety-seventh to One Hundred and First street, and farther, that the location of the cross-over tracks now at Ninety-seventh and Ninety-eighth streets be changed to corresponding positions between One Hundred and First and One Hundred and Second streets. This change will make the block 1286 feet in length on the inbound tracks and 1446 feet on the outbound tracks.

May Have Only Two Blocks.
The Board is of the opinion that these last mentioned signals and cross-overs are now too close to inbound trains emerging from the north end of the tunnel. AFTERNOON NEWS IN PARAGRAPHS.

LOCAL.
President Vreeland, of the Metropolitan Street Railway Company, told District Attorney Jerome today that a new schedule had been adopted which would enable each man in the employ of the company to put in regular time. None of them will be asked to work over ten hours a day.

The body of Mrs. Honore, the mother of Mrs. Potter Palmer, who died in Florence, Italy, arrived today on the steamer Forest Blumark, from Gibraltar. Mrs. Palmer was at the dock to meet the steamer.

While outward bound the Forest Brook came in collision in Godney Channel with the British steamer Snowflake, Capt. Howard, also outward bound for Southampton, today. The Forest Brook had her starboard bows stove in, and returned. The Snowflake proceeded on her voyage.

John H. Garrison, the cotton broker, applied to Justice Triest in Supreme Court this afternoon for a mandamus directing the Board of Managers of the Cotton Exchange to restore him to his rights and privileges as a member of the exchange. It was claimed that Garrison's suspension was irregular and illegal.

The Appellate Division of the Supreme Court today handed down a decision reversing the order of Surrogate, and holding that the sum of \$433,999.33, left by Timothy B. Blackstone on deposit in New York, was not subject to the transfer tax.

Joseph Stearn, an artist, of No. 71 East One Hundred and Eighteenth street, was committed to Bellevue for his sanity. His wife is in Madison Avenue with consumption, and has been doing his work and taking care of his two children without assistance for eighteen months.

It was reported in Wall Street this afternoon that Lyman J. Gage had been elected to the Presidency of the International Banking Company, but the report could not be verified. Valentine Snyder, President of the Western National Bank and one of the directors of the International Banking Company, said that he had not heard of it.

Thomas J. Ford, Deputy Tax Commissioner of the Bronx, was held in \$5000 bail by Magistrate Cornell in the Centre Street Court today on a charge of bribery. It appeared from the evidence that Ford approached J. Bowie Dean of No. 61 Water street, and told him that if he was "treated right" at the amusement on Dash's property at Van Cortlandt Park would not be raised.
